

## **Meeting Summary**

### **Overview:**

The team had a brief 45-second sync to discuss the status of this week's deliverables and ensure everyone is on track.

### **Key Points Discussed:**

- The APA integration is expected to be completed by the end of the day, with testing to follow.
- The UI screens for the dashboard are complete, and a new color scheme has been implemented.
- A quick walk-through is scheduled for tomorrow to review both pieces.

### **Action Items:**

- Rahul will receive updates from Sneha regarding any assets needed for integration.
- Sneha is responsible for letting Rahul know if any assets are required for integration.
- Team members are expected to immediately update Rahul if they hit a blocker to avoid losing time.

### **Next Steps:**

The team will have a quick walk-through tomorrow to review the APA integration and the updated dashboard. If any issues arise, the team will work together to resolve them and keep the project on track.
